Gourmet Popcorn

Too good to string on the tree, 479-Degree popcorn comes in eight gourmet flavors packed in lovely boxes perfect for gift-giving (or nights curled up watching holiday specials). Our favorites are ginger sesame caramel, madras coconut curry with cashews, and black truffle and white cheddar. Handmade in small batches in heavy copper kettles, the 100 percent organic snack was named for the optimal temperature for popping corn. \$33 for a sampler of 5 boxes, 479popcorn.com
