

# Two to Try: Recchiuti Chocolates and 479° Popcorn

★★★★★ ( Average Rating: **5.00** out of 5)

By [Melissa](#) • Sep 24th, 2010

Now that bathing suit season is officially over, let's ditch the rice cakes and carrot sticks for some decidedly more decadent and delicious treats. Namely, it's time to try Recchiuti Chocolates and 479° Popcorn.

**479° Popcorn** Butter just doesn't cut it anymore when it comes to popcorn. The organic line offered by 479° Popcorn includes flavors that span far beyond cheddar or caramel. (The company's name came to be, by the way, because 479 degrees Fahrenheit is the optimal temperature for popping corn.) Among the unique flavors of 479° Popcorn are black truffle and white cheddar, curry coconut and cashews, ginger-sesame caramel and Vietnamese cinnamon sugar. Each delicious option—some spicy, some sweet—are made in small batches with spices that were ground by hand. I recommend getting your hands on a popcorn sampler (the Sweet Tooth collection, \$35, is a fave) to try several of 479° Popcorn's flavors. Plus, I adore the sleek design of the boxes and logo.
